

ADDENDUM

CDBG Program Attachments

South Carolina Consolidated Annual Performance & Evaluation Report

*Program Year 2013
April 1, 2013 – March 31, 2014*

CDBG Program Attachments

This Addendum contains the attachments to the State of South Carolina's Program Year 2013 Consolidated Annual Performance & Evaluation Report (CAPER), Section IV – CDBG Program Narrative. Inclusion of this Addendum is required to conform to HUD CPD Notice 11-03 issued in June 2011, which specified IDIS (Integrated Disbursement and Information System) PR28 Financial Summary and Activity Summary reports that State CDBG Programs must include as attachments to the CDBG Program Narrative section of their annual CAPERs. The required IDIS reports are only available via download from the HUD IDIS system and include:

- IDIS PR28 – Financial Summary Reports
- IDIS PR28 – Activity Summary Report

The Financial Summaries can also be found in the 2013 CAPER itself, in Section IV – CDBG Program Narrative. The Activity Summary Report is included only in this Addendum. Both reports are described below.

Important Note: These IDIS reports required HUD to make substantial modifications to the IDIS system to incorporate additional information and allow reporting according to the unique requirements for State CDBG Programs. The previous version of IDIS, which had been in use for many years, did not track all the information necessary to meet all State Program reporting requirements, in particular the requirement to track projects by year of HUD Grant funding. The State has therefore always had its own dedicated system for grants management information for CDBG, and like all other states, met reporting requirements using data and reports generated from our own system. The IDIS reports that are now required are accurate only for grants received from HUD, and funding and expenditures entered into IDIS, since the system upgrade. In addition, there are some elements of State Programs that HUD acknowledges that IDIS cannot completely accommodate, and therefore created a means by which states identify needed adjustments to the Financial Summary Reports and enter these into IDIS before printing the reports. Readers are cautioned to carefully review the notes below regarding adjustments to the Financial Summaries, as well as the notes regarding data, format, and presentation of data on the Activity Summary.

PR28 IDIS Financial Summary Reports

The IDIS Financial Summary reports are generally focused on expenditures or the amount of each year's HUD Grant expended by the State and its subrecipients during the program year. Only Part I A, Sources of State CDBG Funds and Part I B, State CDBG Resources by Use show amounts obligated to recipients and set aside for state program administration and technical assistance. All other sections show expenditures, including: Part I C, Expenditures; Part I D,

CDBG PROGRAM ATTACHMENTS

Compliance with Public Service Cap; Part I E, Compliance with Planning and Administration Cap; and Part II - Compliance with Overall Low and Moderate Income Benefit. These IDIS Financial Summary Reports are also “live” reports reflecting data in IDIS as of the report run date. Most recent HUD guidance instructs the State to run the Financial Summary report for each open HUD Grant Year as of the end of the Program Year, to serve as an archive of the report as of this point in time. Subsequently, IDIS offers no means of running a report accurately reflecting financial status as of Program Year end, or in this case March 31, 2014.

Financial Summary Adjustments

There are multiple “**adjustment**” lines indicated on the IDIS PR28 Financial Summaries. The reason for this is that, prior to recent updates, HUD’s IDIS system did not accommodate all information needed to comply with State CDBG Program reporting requirements. In particular, data reported by IDIS for older grant years is especially likely to be inaccurate. HUD therefore designed an interface by which states can enter adjustments to IDIS-generated data to ensure correct reporting. On the PR28, unadjusted IDIS data is presented first, followed by adjustments entered by the State to correct the IDIS-generated amounts, and finally the calculated result or “total” amount is presented. Readers should focus on report lines with labels beginning with “**Total.**”

- Note: Adjustments on each PR28 are those which the State determined to be necessary to reconcile the IDIS Financial Summary for each open HUD Grant to state data - *as of March 31, 2014*. Reports run after that date from IDIS may not yield calculated total lines that correctly reconcile live IDIS data to live state program system data.

Program Income

As used on the Financial Summaries, “Program Income” refers to other CDBG funds recaptured by the State and used in two distinct ways: as regular program income, or as state revolving fund program income. These are combined on the Financial Summary reports and collectively referred to as “Program Income.” But it should be noted that they each have unique reporting requirements, which stem from when HUD considers each type of Program Income to have been “distributed.”

As noted in CPD 11-03, HUD requires that:

*“... program income (PI) returned to the state belongs to the [HUD Grant] which funds the program year in which the program income is **distributed.**”*

HUD considers PI distributed when simultaneously expended and obligated and SF distributed when obligated only.

Program Income (PI)

Program Income (PI) is expended or disbursed as it is received. The state effectively obligates PI immediately upon receipt, to subrecipients with existing grants who have a pending request for payment. PI funds either partially or completely offset HUD CDBG grant funds that would otherwise be used to pay the draw request. In this way, PI funds are disbursed immediately.

CDBG PROGRAM ATTACHMENTS

State Revolving Fund Program Income (SF)

State Revolving Fund Program Income (SF) is handled more like the annual HUD Grant. The State obligates SF funds for new grant awards or increases to existing awards, and SF funds are reported with the HUD Grant corresponding to the year **obligated**. Like regular CDBG grant funds, disbursement of SF funds is delayed until after grant award and startup, once implementation or construction of an SF-funded project begins.

Since SF program income is reported with the HUD Grant for the year during which it is **obligated**, the entire amount shows up on the Financial Summaries as “returned to the state” and “redistributed” in the year it is obligated. Regular PI, on the other hand, shows up when it is obligated *and expended*. One other main difference between regular PI and SF is that SF amounts reported may change in the future, if the amount of an SF obligated amount is reduced or an SF-funded grant is terminated. In that case, the recaptured funds will show up in the year they are re-obligated.

Financial Summary Reporting of PI & SF Funds

Program Income, both PI and SF, show up in the IDIS Financial Summaries in Part A - Sources of State Funds and in Part B – State CDBG Resources by Use. Receipt of PI and SF funds is combined and shown on Part A, Line 3, “Program income receipted in IDIS.” Receipts are also shown in Part B, on either Line 20, “Returned to the state and redistributed” or Line 23, “Returned to the state and not yet redistributed.” All PI is indicated as received in IDIS when it is actually received by the State, and it is indicated as obligated in IDIS when obligation actually occurs. For PI, this is just prior to these funds being drawn. For SF, this is when obligated, typically well in advance of the SF funds being drawn.

It is unclear what rules are used to determine whether PI is shown on Line 20 or Line 23 on the Financial Summary Reports. The State has therefore made the assumptions outlined below to determine whether adjustment is required for Line 20 or Line 23 and to correctly report Line 22, “Total redistributed” and Line 25, “Total not yet redistributed.”

- Part A, Sources of State CDBG Funds - Program Income that belongs to the HUD Grant Year is reported along with the annual CDBG grant from HUD. The amount of Program Income shown includes the total amount of PI obligated/expended and SF obligated during the year. Together the State Allocation and Program Income make up State CDBG resources for the HUD Grant Year.
- Part B, State CDBG Resources by Use
 - Program Income “Returned to the State and Redistributed” (Lines 20 - 22) - Total amount of PI obligated to grant recipients and expended during the year and SF obligated to grant recipients during the year. The amounts on Line 20 are populated by IDIS, and the “adjustments” on Line 21 are required to yield the correct “Total amount redistributed” on Line 22.
 - Program Income “Returned to the State and Not Yet Redistributed” (Lines 23 - 25) - Unexpended PI and unobligated SF balances. PI is expended immediately upon receipt and SF is reported in the year it is obligated. These lines are therefore applicable only to the 2013 Financial Summary, which corresponds to the current program year. For Grant Years prior to 2013, Line 23 is populated by IDIS and “adjustments” on Line 24 are those needed to reduce the Line 25, “Total not yet

CDBG PROGRAM ATTACHMENTS

redistributed” to zero (\$0). For Grant Year 2013, Line 23 is also populated by IDIS, but the “adjustment” on Line 24 is the amount needed to yield the correct amount of unobligated SF on Line 25.

- Program Income “Retained by Recipients” (Lines 26 – 28) - Zero (\$0) for all Grant Years as no program income is retained by the State or by its sub-recipients. Program income on hand must be spent before any additional CDBG funds are drawn. “Adjustments” on Line 27 are those needed to reduce Line 28, “Total retained” to zero (\$0).
- Program Income resources in Part A match Program Income uses in Part B for all Grant Years except the current one, which is 2013 for this performance report. This is because Program Income is reported in the year when it is received and expended (PI) or obligated (SF), and program income can no longer be reported with a Grant Year after March 31, or the end of the corresponding program year.

Financial Summary Sections

Part A – Sources of State CDBG Funds

Total State CDBG Resources includes both the “State Allocation” and “Program Income,” described in detail above. State Allocation refers to the annual HUD CDBG grant to the State. Since the State does not have any Section 108 Loan Funds for any open grant year, Line 7, “Total State CDBG Resources” is the sum of the annual CDBG allocation or HUD grant and Program Income. This section does not change after the initial report for the grant year.

Part B – State CDBG Resources by Use

This section identifies how the State has used available resources, including each annual CDBG allocation or HUD grant and Program Income. Funds, except allowable set asides for State Program administration and technical assistance, must be initially obligated to recipients with 15 months of signing the HUD grant agreement. This section therefore reflects cumulative use or obligation of each year’s CDBG grant from HUD. Line 11, “Total obligated to recipients” reflects all grants awarded out of the corresponding CDBG grant, including grants which were not active during the year and are not reported on the PR28 Activity Summary (see below). Expenditure of funds obligated is reported in Part C – Expenditure of State CDBG Resources.

Allowable amounts for State Program administration (2% of the annual allocation plus \$100,000) and technical assistance (1% of the annual allocation) are set aside when the HUD Grant is initially received and do not change after the initial report. Like funds obligated to recipients, expenditures are reported in Part C. One additional amount reported in this section is the State match of the 2% administration funds, which is shown on Line 18.

Lines 19 through 28 correspond to Program Income use, described above.

Part C – Expenditure of State CDBG Resources

This section identifies cumulative expenditure of funds shown in Part B for “State Administration” (Line 31), “Technical Assistance” (Line 34) and “all other activities” (Line 40). All other activities are funds obligated to recipients and drawn by recipients subsequent to

CDBG PROGRAM ATTACHMENTS

award. Amounts expended for State Administration and Technical Assistance cannot exceed the allowable set asides described above and shown in Part B.

Part D – Compliance with Public Service (PS) Cap

The amount of State CDBG funds that can be spent on public services (PS) is capped at 15% of each annual CDBG allocation (less admin and technical assistance set asides) plus program income.

The State tracks all expenditures for public services activities, including those PS activities which are primary grant activities and correspond to activities in IDIS, but also at the budget level corresponding to other, incidental activities. As the State does not report incidental activities in IDIS, per guidance provided at HUD IDIS training sessions for State CDBG Programs, “**Adjustments**” on Line 42 are those needed to include incidental public services amounts, correct the IDIS-populated data on Line 41, and yield the correct amounts on Line 43, “Total distributed for PS” and Line 49, “Percent of funds disbursed to date for PS.”

- Note: Compliance with the public services cap cannot be determined until all funds from a particular HUD Grant have been expended.

Part E – Compliance with Planning and Administration (P/A) Cap

The amount of State CDBG funds that can be spent on planning and administration (P/A) is capped at 20% of each annual CDBG allocation plus program income.

Like public services, South Carolina tracks expenditures by primary activity as well as by incidental activities not reported in IDIS. “**Adjustments**” on Line 51 are therefore those needed to include incidental amounts for incidental local administration and planning, correct the IDIS-populated data on Line 50, and yield the correct amounts on Line 52, “Total distributed for P/A” and Line 49, “Percent of funds disbursed to date for P/A.”

- Note: Compliance with the planning and administration cap cannot be determined until all funds from a particular HUD Grant have been expended.

Part II - Compliance with Overall Low and Moderate Income Benefit

State CDBG Program regulations require that at least 70% of CDBG resources over a defined period must be spent to benefit Low and Moderate Income (LMI) persons. Part II shows expenditures in IDIS for activities based on the CDBG National Objective, for each three-year LMI compliance period. The three-year period report is identical for each Grant Year included in the three-year benefit period.

Like public services and planning/administration, South Carolina tracks expenditures by primary activity as well as by incidental activities not reported in IDIS. Some incidental budget activities will meet a different national objective than the project as a whole, and expenditures for incidental local planning and administration need to be excluded from the amounts expended for activities meeting the LMI, Slum/Blight and Urgent Need national objectives. “**Adjustments**” are those needed to correct IDIS-populated data on Lines 61, 65 and 68, adjust for incidental activities meeting different national objectives and to deduct incidental local administration and planning, and yield the correct amounts on Line 64, “Total Benefiting LMI,” Line 67, “Total

Preventing Slum/Blight” and Line 70, “Total to Meet Urgent Needs.” This in turn results in the proper three-year totals and the proper percentage on Line 73, “Low and moderate income benefit.”

PR28 IDIS Activity Summary Report

The PR28 IDIS Activity Summary is required per HUD notice CPD 11-03. Because of its length, it is provided in the separate CDBG Program Attachments addendum to this performance report and can be downloaded from www.cdbgSC.com.

This report lists activities according to the HUD grant or annual CDBG allocation out of which they were funded. However, not all activities funded out of each HUD Grant are included on the PR28 Activity Summary. The Activity Summary lists active grants, which are generally those with funds expended during the year or that were completed or canceled in IDIS during the program year. And the Activity Summary does not list activities completed prior to the start of the program year, or activities which are open but expended no funds during the program year. Consequently, this report should not be considered as backup or a source of supporting data for the PR28 Financial Summary reports. Supporting data for the Financial Summaries is maintained in the State's files.

The Activity Summary displays information as follows:

- Data that is not collected by IDIS or which is not applicable for a particular type of activity is shown as zero "0" rather than left blank or shown as NULL (no value exists) or N/A (not applicable or not available in IDIS).
- Proposed and actual accomplishments for Low Mod Area Benefit (LMA) activities are shown only in the section labeled "Proposed Accomplishments." Data in the "Proposed Accomplishments" section is, in fact, proposed only if the activity is open in IDIS. If the activity has been completed in IDIS, the data displayed is the actual accomplishment data (regardless of the incorrect label).
- No actual accomplishment information for LMA projects is shown in the section labeled "Actual Accomplishments." This is because there is no provision for entering this information in IDIS for LMA projects, and IDIS does not have any information to display on the Activity Summary. As noted above, the report displays a zero (0) instead of NULL or N/A.

Despite the incomplete nature of LMA project information displayed in the Activity Summary, the State does collect and maintain all pertinent information, including information on the race, ethnicity and income level of people benefiting from all CDBG-funded projects. Please refer to Section II - Families and Persons Assisted and to Families and Persons Assisted by CDBG Funding, above.

Labels and related data on the Activity Summary include:

- **UGLG** – the unit of local government to which the state has obligated funding from one or more HUD Grants.
- **Grant Year** – The year of the annual CDBG Allocation or HUD Grant from which funds were obligated to the local government.
- **Project** – The CDBG Program for the applicable annual allocation under which funds were distributed, or obligated to the local government.
- **IDIS Activity** – The number assigned to the activity by IDIS, plus the name of the local government.

CDBG PROGRAM ATTACHMENTS

- **Status** – The status of the activity in IDIS, followed by either: a) the date completed or canceled, or b) if the grant is open, a zero (0) indicating a date is not applicable.
- **Objective** – One of three HUD objectives (Decent Housing, Suitable Living Environment or Economic Opportunity) which the activity will address.
- **Outcome** – One of three HUD outcomes (Availability/Accessibility, Affordability or Sustainability) which the activity will achieve.
- **Matrix Code** – An IDIS code indicating activity type.
- **National Objective** – A code reflecting one of three HUD national objectives and specific eligibility under each (LMA area benefit, LMC limited clientele, LMJ jobs, LMH housing, SBA Slum/Blight area, SBS Slum/Blight Spot, and UN urgent need). Note that state planning, state administration and technical assistance do not need to meet a national objective and the report displays (0) to indicate not applicable for these types of activities.
- **Initial Funding Date** – The date the activity was initially funded in IDIS, as distinct from the date obligated on the grant award between the State and the recipient. Date obligated is collected by IDIS (and maintained in the State’s records) but is not shown on the Activity Summary.
- **Financing:**
 - **Funded Amount** – Amount of the annual CDBG Allocation or HUD Grant obligated to the activity, plus any PI or SF Program Income. Activities which have funding from multiple HUD Grants will show up under each year of funding, with only financial information unique to the grant year. All other information is duplicated.
 - **Net Drawn** – The cumulative amount of the HUD Grant, PI or SF expended.
 - **Balance** – Funded amount less net drawn.
- **Proposed Accomplishments** – Data shown here varies, depending on the national objective and activity status.
 - **People (General)**
 - Open activity meeting an LMA, LMC, SBA, SBS or UN National Objective - number of people *expected* to benefit
 - **Completed activity** meeting an LMA, SBA, SBS or UN National Objective - **actual accomplishments, or actual number of people who benefited.** Actual people benefiting from completed LMC activities are shown in the Actual Accomplishments section.
 - **Jobs**
 - Open activity meeting an LMJ National Objective - number of jobs expected to be created or retained. Actual jobs when a project is complete are shown in the Actual Accomplishments section.
 - **Units**
 - Open activity meeting an LMH National Objective - number of households expected to benefit. Actual units when a project is complete are shown in the Actual Accomplishments section.

- ***Total Population in Service Area***
 - Zero (0) - not applicable (all non-LMA projects)
 - Open LMA activities – total number of people expected to benefit, based on either census data or a survey
 - Completed LMA activities – actual number of people who benefited, based on either census data or a survey
- ***Census Tract Percent Low/Mod***
 - Zero (0) - All non-LMA activities, indicating not applicable
 - Open LMA activities – percentage of people expected to benefit who are LMI, based on either census data or a survey. Number of LMI is not shown.
 - Completed LMA activities – percentage of people who actually benefited who were LMI, based on either census data or a survey. Number of LMI is not shown.
- **Actual Accomplishments:** Although the State collects actual accomplishment data for all completed activities (except those with state planning matrix codes), and maintains this information in its files, the Activity Summary **displays zeroes (0) for most completed activities. This should be interpreted as “data not available in IDIS for this activity type.”** As discussed above, the only actual accomplishment data for LMA projects is shown in “Proposed Accomplishments” section of the Activity Summary (see above).
- ***Number Assisted (by Race/Ethnicity)***
 - Zero (0) for all categories – open activities and completed LMA activities, indicating not available.
 - Completed LMH activities – number of households as applicable in columns labeled Owner, Renter and Total.
 - Completed LMJ or LMC activities – number of people in the column(s) labeled Total. (Owner and renter columns have zeroes, indicating not applicable.)
- ***Female-headed households*** – Zero (0) indicating not applicable for activities except completed LMH activities.
- ***Income Category*** - Data here, *if displayed by IDIS*, indicates total people, households or jobs by category of income: Extremely Low (0-30% AMI), Very Low (30-50% AMI), Moderate (50-80% AMI), Non-Low Moderate (over 80% AMI), along with the Total and the percent LMI.
 - Zero (0) for all categories – open activities and completed LMA activities, indicating not available.
 - Completed LMH activities – number of households as applicable in columns labeled Owner, Renter and Total.
 - Completed LMJ or LMC activities – number of people in the column labeled *Persons*. (Owner, renter and total columns have zeroes, indicating not applicable.)

CDBG PROGRAM ATTACHMENTS

- *Annual Accomplishments / Accomplishment Narrative* – This report generally shows zero (0) as the number benefiting, rather than data entered into IDIS for completed activities. For LMA completed projects, see “Proposed Accomplishments” above. For all other projects, see “Number Assisted” and “Income Category” above.

** As of 3/31/14, funding had been revised to add \$11,000 in 2008 funding and reduce other 2011 funding by \$11,000. This was done to use \$11,000 in old recaptured money to*

partially fund a \$16,056 draw for this grant on 3/19/14. IDIS did not draw this oldest 2008 money as it should have and this PR28 IDIS report showed \$0 drawn above, prior to correction. Correct data for this activity is \$11,000 funded, \$11,000 drawn and \$0 balance.

IDIS - PR28

Date: 31-Mar-2014

** As of 3/31/14, funding had been revised to add \$11,000 in 2008 funding and reduce 2011 funding by \$11,000 to \$459,554. This was done to use \$11,000 in old recaptured money to partially fund a \$16,056 draw for this grant on 3/19/14. IDIS did not draw the oldest 2008 money as it should have, and this PR28 IDIS report showed \$11,000 additional drawn above, prior to correction. Correct data for this activity as of 3/31/2014 is \$459,554 funded, \$425,555 drawn and \$33,999 balance.*
